

It has come to my attention that by expanding the LPFM service, it may affect my local K-LOVE station in Chicago, at 94.3. I am absolutely against this, and feel that K-LOVE is a fantastic national station which directly benefits people like me in Chicago by giving us high quality national programming which normally wouldn't be affordable in a local market.

I would be devastated to lose K-LOVE, and I urge you not to make this decision.

Please make sure that nothing you do affects my local station. K-Love provides many hours of quality Christian radio for me every week.

Sincerely,

David Williams
